Term Paper and Class Presentation:

Students are advised to form a working group of **no more than four (4) students**. Each group should write a term paper and present it in the class. Each group can choose a case either on credit analysis (in Chinese) or on bank risk management (in English). The topic chosen by each group is subject to the approval of the lecturer.

Note: I expect each group to apply the methods/theory learned in the class to analyze the case or topic of your choice. A simple review of the case or literature review of a topic will result in a low score.

The following questions should be addressed in your term paper if a case study is chosen,

a. What has happened, and how did it happen?
b. In your opinion, what are the specific risks involved? You need to present arguments based on data or facts to support your opinion.
c. As a bank manager, what lesson can we learn from this case?

The term paper should be no more than 15 pages with double spaces and Times New Roman fonts no smaller than 11pt. The data source and references should be clearly and completely documented.

如果是选择中文信用分析案例，那么回答案例分析中问题，并且在小组报告重点回答以下问题：

a. 这笔贷款审批的重要因素是什么？为什么？
b. 你们的决策是什么？给出理由

最终贷款审批报告不超过 5 页纸，宋体，小四号字，1.5 倍行间距。
